Please do not oppose satellite radio's growth. It is truly unfair that we as consumers, and owners of the airwaves, be restricted to the several radio station operators opinions and decisions as to what type of programming that we like. How can they know what it is that we like? To be opposed to satellite radio,s growth sends a clear message that you are not representing THE PEOPLES choices, but are truly in the pockets of several self serving, and short sighted station owners. Do you know that in the last 3 years, over 3 million people have chosen TO PAY for the product which you are trying to restrict? That number is estimated to be 12 million by the end of '05. How many of these 12 million will be living in your district? As we have seen with so many other forms of communication, attempts to restrict it never work.PLEASE END YOUR SUPPORT OF H.R. 4026
